ABOUT ME

I am passionate & dedicated to learn new technologies & to excel new innovative technological applications. I have been in the coding field since I know about code & built several Android applications. Now I'm thinking of upgrading myself by exposing myself out of the four walls. So looking forward to an Internship to enable myself continuously learn, create, innovate and simultaneously contribute to the organisational goals effectively using technological and managerial.

PROJECTS

JUN 2020 - JULY 2020
- **Mr.Dhobi-G**
An online Laundry agency. I developed Mr.Dhobi-G app completely including Front-end & Back-end. The purpose of the app is that users can place orders from their desired laundry.
URL : _bit.ly/mr-dhobi_

  Tech stacks:
  Flutter, Dart, Firebase, Sketch, Photoshop

DEC 2019 - FEB 2020
- **Intero Home Solutions**
It is an app through which customers can place orders for their home services like AC, Refrigerator, Washing Machine, TV etc. Then the admin receives the order and sends the technician to the given customer location.
URL : _bit.ly/inter_homes_

  Tech stacks:
  Java, XML, Android Studio, Firebase, Sketch, Photoshop

DEC 2019 - FEB 2020
- **Home Automation**
Home Automation is an app which enables you to control the basic stuff present in a room like fan, TV and many more. The app connects to a microprocessor Board called Arduino by sending data to it via Bluetooth.

  Tech stacks:
  Java, XML, Android Studio, Firebase, Sketch, Photoshop
